

DAIKIN SOLUTION PLAZA
fuha:TOKYO

English

Residential Solutions Zone

Visitors can see exhibits of room air conditioners, air purifiers, Eco Cute, and other products used in daily life and experience the latest product features. Ideal product combinations are also offered to match a variety of lifestyles and home environments.

Residential Air Conditioners

This corner exhibiting our latest lineup gives visitors firsthand experience in the comfort of Daikin products.

Model House

Fully equipped with Daikin housing products, this model house provides a glimpse of products in actual home decors.

3D Theater

The Daikin character PICHONKUN flies out of the screen to provide a simple explanation on air conditioners and heat pump technology.

Multi-Split Air Conditioners

Multi-split type air conditioners can control a maximum of 5 indoor units with only 1 outdoor unit. A variety of indoor units that connect to multi-split AC systems are also displayed.

Eco Cute

Visitors can learn about the Eco Cute system for heating water and experience the latest features.

Air Purifiers

The Streamer discharge system is displayed, and advice is available on the ideal air purifier for your home.

【Meaning of fuha】

fu(fu:) ha(ha:), the sound of our breath
as it cools and warms us.

Transforming traditional and time-honored wisdom
into the latest technology,
"air conditioning" will create a future
of comfort for humanity and the Earth.

Commercial Use Solutions Zone

Equipment serving a variety of customer needs and energy management systems utilizing networks are displayed. In this way, Daikin offers total solutions ranging from new and replacement installations to building management.

About Daikin

Daikin history and examples of worldwide installations are presented on a large touch-panel screen along with some of our memorable TV commercials.

Solution Corner by Application 1

Daikin offers equipment proposals for a variety of environments including factories, hospitals, nursing homes, and offices.

Solution Corner by Application 2

This corner displays VRV multi-split air conditioners for buildings and compact outdoor units that can be installed in narrow spaces.

VRV System Series

Visitors can learn about the system and structure of our VRV multi-split air conditioners for buildings along with the advantages of VRV replacement models.

DESICA Experience Room

Visitors can experience DESICA, Daikin's desiccant humidity control OA unit system, and learn about the system in a short movie.

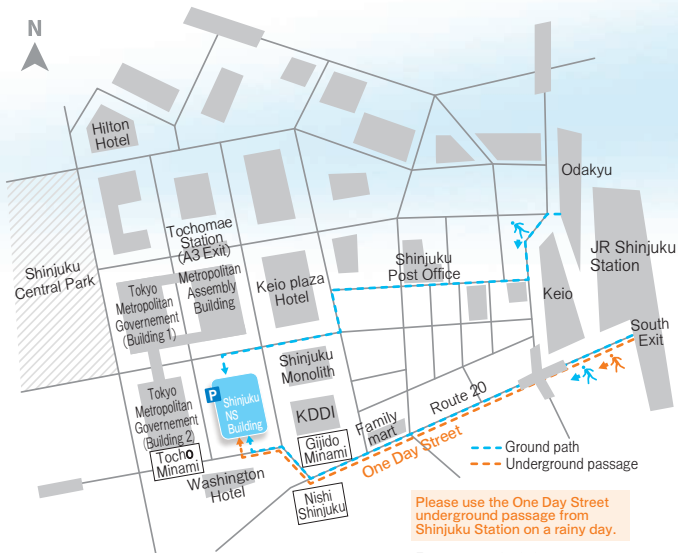

Energy Management System

Management systems offer integrated energy management for entire buildings, including air conditioners, lights, and ventilation. Demonstrations are also available.

*Exhibition content may vary depending on the time of year.
